

## National 4 Support Videos and Links:

This pack contains many useful links to different websites that have videos, worksheets, and notes. You will also find your login details for mymaths in the Files folder on TEAMS.

If you are absent from class (and well enough to do so) please follow the course outline, find the topic you are on and try to keep up to date by watching the supporting videos and reading notes. You should try to attempt the homework set by your class teacher. This will be communicated through teams.

\*Remember you can always ask a reliable friend to send you a photo of class notes\*

**The starting topics for each year group are below:**

<b>S3</b>	<b>S4</b>	<b>S5/6</b>
<b>Numeracy: Integers Percentages and Fractions of an amount Time Intervals Area, Volume, Perimeter Ratio Pie Charts Foreign Exchange Probability Speed/Distance/Time</b>	<b>Numeracy: Integers Percentages and Fractions of an amount Time Intervals Area, Volume, Perimeter Ratio Pie Charts Foreign Exchange Probability Speed/Distance/Time</b>	<b>Numeracy: Integers Percentages and Fractions of an amount Time Intervals Area, Volume, Perimeter Ratio Pie Charts Foreign Exchange Probability Speed/Distance/Time</b>
<b>Relationships unit, Expressions and Formulae unit &amp; Added Value Unit. The Scheme of Work can be found under NATIONAL 4 Tab.</b>		

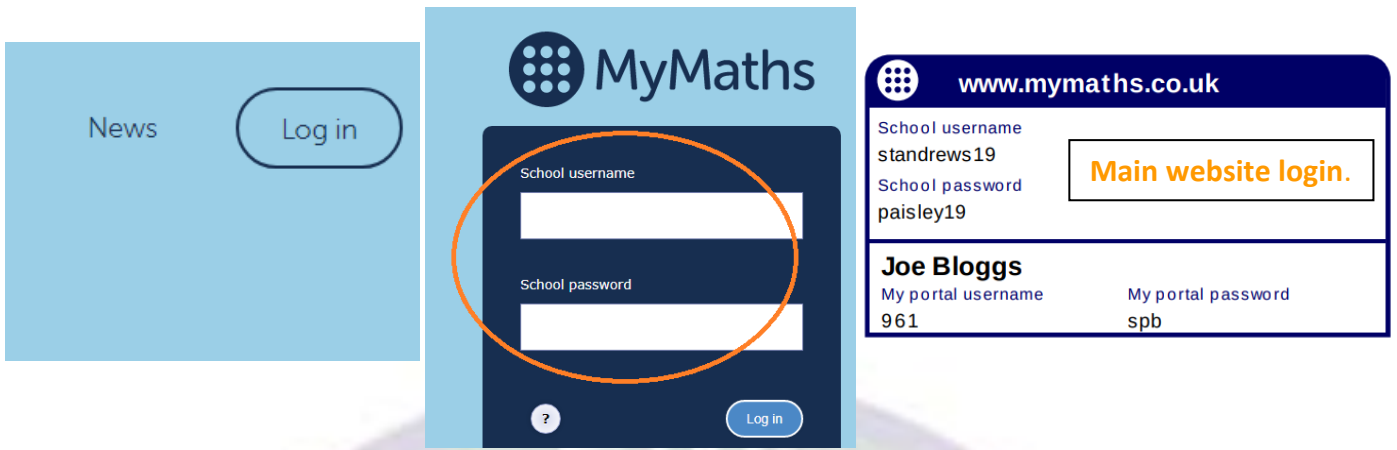

Some useful websites to help support you with National 4 Maths.  
Remember you can always search YouTube for help with specific topics.
