

# Welcome to St Andrews!

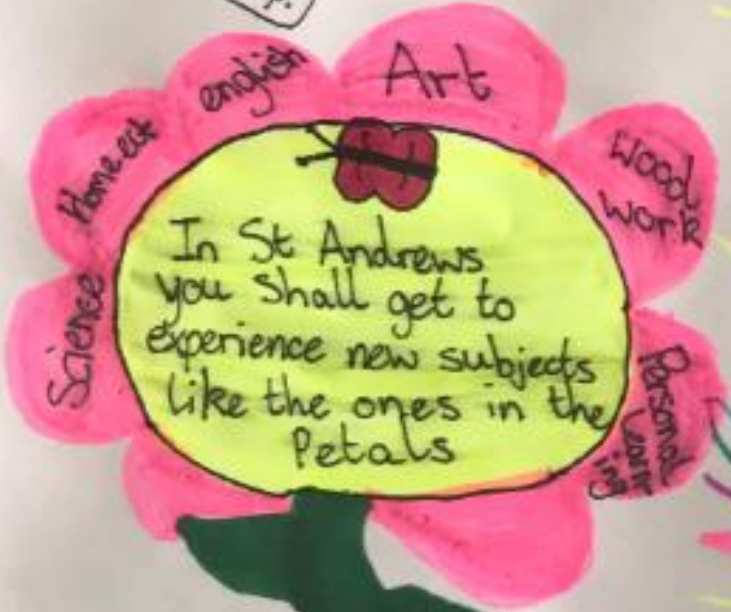

School might be big but do not be scared to ask for Help!

Keep Smiling

At St Andrews the most best thing is that you make more and more new friends!

In St Andrews you shall get to experience new subjects like the ones in the Petals

Here you also get to try many fun Clubs!

## Welcome to S1!

Before I came to school I was quite worried but after the first day I realised there was nothing to worry about!

For the first day of St I would advise you to pack

- a pencil or pen
- ruler, rubber and a packed lunch or lunch money

Some of the clubs that run at St Andrews Academy include hub club, art, science, enterprise, debating, boxing, volleyball, eco group and many more.

I have made a lot of new friends in high school but I have also kept a lot from primary school

Since primary school I have been taught how to speak a lot more Spanish.

# Welcome!

Stay  Positive!

If you ever need help with anything there are many people who will support you such as guidance, older pupils, friends, teachers and staff.

My favourite experience in St Andrews is making a spatula in woodwork!

My favourite subject in school is art because I have always loved drawing
